(54) Title: DEVICE FOR ILLUMINATING THE STOPE SUPPORT AT A LONGWALL FACE

(54) [see German text in source]

(57) Abstract: The light sources (13-15) for illuminating the stope support at a longwall face are operated at low voltage, connected to the control network device (8), for low voltage supply of the system controllers (1-7). LEDs are particularly suitable as light sources. Measures for avoiding an impairment of the function of the system controllers are disclosed.
